ND DELTA

NOTRE DAME DELTA CLUB

Delta is a collaborative, student-led organization at the University of Notre Dame focused on the intersection of mathematics, theory, and real-world problem-solving. Our goal is to give students a deeper understanding of how quantitative ideas drive modern decision-making in finance, technology, and research.

Each week, members engage with topics such as econometric modeling, optimization, probability, market microstructure, and quantitative finance. Through hands-on projects, discussions, and real-world case studies, students learn how abstract mathematical concepts translate into practical tools used in industry and academia.

ND DELTA

ABOUT THE EVENT

HIGH-FREQUENCY, ALGORITHMIC TRADING

In partnership with NDIGI and ND Delta, this competition brings together top quantitative and finance-focused students to build fully automated trading algorithms and deploy them in a live, exchange-simulated market. Using a Python SDK and a production-style matching engine developed by our trading competition lead, teams trade four assets, including an ETF with a defined basket relationship, against other participants, market-making bots, and noise traders. Over multiple short, high-intensity rounds, competitors design strategies such as ETF arbitrage, market making, momentum, and mean-reversion, all while managing P&L, fees, position limits, and real-time order-book dynamics.

TALENT PIPELINE & SPONSOR VALUE

This competition will host over 100 top students with strong quantitative, analytical, and programming backgrounds. By designing and deploying trading algorithms in a live, fast-moving environment, participants demonstrate practical skills in strategy development, market reasoning, and real-time decision-making. The competition gives sponsors an early look at students who have hands-on experience building trading systems and ensures your firm is visible to a concentrated group of highly motivated quantitative finance candidates.

SPONSORSHIP OPPORTUNITIES

FLEXIBLE SPONSORSHIP LEVELS TAILORED TO YOU

Sponsorship funds support prize money, technical infrastructure, participant resources, and the event's long-term growth. We're happy to tailor benefits to fit your recruiting or branding goals.

Our goal is to partner with firms that want to support quantitative education and connect with top student talent. We appreciate any form of sponsorship, whether that's financial support, swag, or recruiting resources. Any level of involvement helps us run a strong event in the Mendoza Trading Room and gives your firm visibility throughout the competition.

PLATINUM $5,000

- Prominent logo placement on all materials, event banners, website, and dashboards
- Opportunity to speak at the opening session
- Dedicated recruiting booth in the Mendoza Trading Room
- Access to participant resumes

GOLD $2,500

- Large logo placement on marketing materials, website, and dashboards
- Recognition during opening and closing remarks
- Access to participant resumes

SILVER $1,000

- Logo placement on promotional materials and competition website
- Recognition during the competition

WHY SPONSOR US

THE VALUE OF YOUR SPONSORSHIP

Sponsoring the Notre Dame Trading Competition connects your firm with one of the strongest pools of quantitative and finance talent at Notre Dame. The event brings together students who are serious about markets, algorithmic trading, and technical problem-solving, providing a high-impact channel for brand visibility and early recruiting.

TARGETED EXPOSURE

Your firm will be front-and-center for students actively pursuing careers in trading, research, and quant development. All sponsors receive prominent placement on event materials, the trading dashboard, and pre-competition communications viewed by every participant.

ENGAGEMENT OPPORTUNITIES

Sponsors have the option to connect directly with students through pre-event meet-and-greets, resume access, or speaking opportunities at the kickoff. This creates a natural pipeline for identifying strong candidates early in the recruiting cycle.
